## In Just 6 Weeks, AI Helped This Rajasthan District Achieve a 96.4% Math Pass Rate

<https://thebetterindia.com/education/tonk-ai-powered-personalised-learning-boosts-math-outcomes-rural-schools-dr-saumya-jha-10587427>

*Why this article matters:* A district in Rajasthan significantly improved math pass rates using an AI-powered personalized learning platform. This initiative addressed teacher shortages, improved student performance, and democratized access to high-quality math practice, leading to a substantial increase in student success and closing the performance gap compared to the rest of the state. The program offers a scalable model for other districts and has the potential to expand to other subjects and grade levels.
